Our shoemobiles bring the safety shoes to you!

866-723-8748 (866-SAF-TSHU)    [www.quenvolds.com](http://www.quenvolds.com)

# Quenvold's is the Right Fit

- Tough – Durable – Comfortable
- State of California Small Business #29983
- Better Business Bureau A+ rating
- Our warehouse stocks over 12,000 pairs of shoes
- First mobile service on the West Coast providing shoemobile service for over 55 years
- Trained staff to recommend and fit the right product for each person and every work environment, including specialty environments
- Bringing the store to your door for convenience and efficiency
- Clean and green shoemobile fleet with the lowest emission diesel trucks available
- Latest technology and regularly updated styles
- Sizes available from women's 4 to men's 18 with multiple widths

## **Shoemobiles carry:**

- Over 85 styles
- 1,400 pairs of shoes
- 9 quality brands
- 2 types of insoles
- Socks, laces, and sno-seal

All shoes are stocked in medium widths, except those noted.

All shoes, except those note as soft toe, have protective toes as stated in the ASTM F2413-18 and beyond safety standard.

# Shoe Characteristics

(Características del Zapato)

	<b>Lightweight Metal Toe</b> Toe is of a lightweight metal, providing the same safety standard as stated in the ASTM F2413-18.
	<b>Anti-Fatigue</b> Anti-fatigue technology footbed for all day comfort and energy return.
	<b>Conductive</b> WARNING: ONLY TO BE WORN IN CONTROLLED ENVIRONMENTS Designed to facilitate the discharge of static electricity from the body through shoes into grounded conductive floors. ASTM F2413-18
	<b>Cold Formula</b> Thermoplastic urethane providing enhanced traction on frosted ice surfaces.
	<b>Composite Toe</b> Toe is of a non-metallic material, providing the same safety standard as stated in the ASTM F2413-18.
	<b>Dual Density</b> Outer density is abrasion and slip resisting. Inner density provides a soft bed of thick absorbing comfort.
	<b>Durashock</b> Lightweight outsoles for shock absorbing comfort and durability.
	<b>Electrical Hazard</b> Designed to protect the wearer from electrical circuits of 600 volts or less under dry conditions. ASTM F2413-18 EH.
	<b>Waterproof</b> Membrane-lined to stop water absorption.
	<b>Insulated</b> Shoe contains an insulated lining.
	<b>Met Guard</b> Metatarsal guard. ASTM F2413-18 MT.
	<b>Puncture Resistant</b> Puncture resistant outsole.
	<b>Rubber Outsole</b> Oil resisting rubber outsole.
	<b>Static Dissipating</b> Constructed to reduce the accumulation of static electricity by conducting the body charge to a properly grounded flooring system. ASTM F2413-18 SD.
	<b>Slip Resistant</b> Superior traction even in wet, oily environments.
